## Why AI Agents > Automations

### Smarter Than Scripts

→ AI Agents go beyond rule-based automations. They understand intent, adapt replies, and guide conversations like a real assistant would.

### Works Across Any Tool or Platform

→ Unlike automations tied to one app, AI Agents stay active — even if your CRM, website, or inbox goes offline.

### Handles More Than Just Messages

→ They don't just reply — they qualify leads, update your CRM, send follow-ups, and trigger smart workflows.

### Learns and Improves Like a Human

→ AI Agents continuously learn from real guest interactions, boosting conversions and performance the more they run — no manual updates needed.

## What Hosts Say

**John, Boutique Hotel  
Owner — NYC**

“The AI Sales Agent captured more leads in 3 weeks than our whole site did in 6 months. Game changer.”

**Maria, Airbnb  
Host — Tulum**

“I stopped manually chasing reviews. Now they just come in. 5-star ones. Every week.”
